## "Grippe" Leaves Kidneys Weak

The epidemic of colds and grippe that has been sweeping the country has seemingly left even a greater number of people than ever in a weak-ened, rundown condition from which there is but a slow recovery. Much of this after weakness affects the kidneys and bindder, making it difficult for them to perform their natural functions. Sufferers have to get in and out bad half a dozen times a night, their backs are weak and painful, sick head-aches and diamness are common symptoms. No serious trouble may exist, but the time to check such symptoms is at once before anatters grow worse, no somplicated treatment may be needed if a few doses of a good safe kidney regulator like Solvax is taken right away. Solvax straightens out an ordinary case of weakened kidneys in about twenty-four hours in many instances, sifts out and neutralizes poisonous uric acid and drives the from the body so that you can begin to feel better right away. Solvax is harmiess, contains no alcohel or habit drugs, and Lee & Osgood Co. and other leading druggists agree to refund its full purchase price if in any case it falls to give entire satisfaction.

Walter Phipps of Boston, who recently purchased the Amadon machine shop property in Staffordville, has had new floors laid and other improvements made preparatory to installing machinery for a silk throwing industry. The building has been idle since the death of Samuel Amadon, about a dozen years ago. Mr. Amadon had a foundry and machine shop there for several years. After Mr. Amadon's death the Gariand Woolen company of Staffordville bought the property and put a number of looms in it, but their blant burned soon afterwards and the looms were sold and removed. The building was erected by E. A. Converse in 1845 and was the home of the old Stafford loom, which was quite famous a third of a century ago.
